REMAIN UNCHANGED.

Goldbeaters' Tools and Cooks' Caps as  
They Were in Ancient Times.In almost every kind of trade known  
to man the years have brought man-  
ifold changes in the way of tools, im-  
proved machinery, advanced ideas as  
to the manipulation of material and  
numberless aids from the fields of  
science, the workshop of the chemist,  
the inventor and the artist. But there  
is one trade in which no advance has  
been made and that is in the goldbeat-  
er's trade. The same tools and the  
same appliances are used now as in the  
days when Solomon built his temple  
and the art flourished in ancient times.  
When Tyre and Sidon ruled the seas,  
when Carthage disputed with Rome the  
supremacy of the world, the goldbeat-  
ers of those days worked with the same  
implements as those used nowadays.  
It is a very singular thing that in all  
this endless change, this rearranging  
and shifting, the goldbeaters' trade  
should still be conducted on its ancient  
basis and stand primitive in relation  
to the other trades and arts that have  
progressed so steadily and importantly.  
Another curious feature of the trades is  
the badge of the cook's cap. It is the  
same cap nowadays as the cap worn  
by the cooks who served up nightin-  
gales for Lucullus, Vitellius and  
the Roman emperors. The cooks of the  
days of Shakespeare, of Charlemagne,  
of ancient time, wore the same  
shaped headgear—the inevitable cook's  
cap that the chef of a fashionable mod-  
ern hotel wears. The times change and  
people change with them, but in this  
labyrinthine maelstrom of change it  
must be remembered that there still  
exist two symbols sent down through  
the ages as they were in the beginning.  
There are 1,000 men to every 900  
women in Greece.**Illinois Trust

**Cripple Creek Gold Tunnel Co.**

1017 N. Y. Life Bldg., 171 LaSalle St.

This Company owns a splendid mining property on Bull Hill, in  
the Cripple Creek District. It consists of a mining claim and a tun-  
nel site equal to more than ten mining claims. Work is being  
pushed on this property day and night. Three shifts of men are em-  
ployed working eight hours each every twenty-four hours, so that  
the work never stops. Up to the present time a tunnel has been  
driven upwards of four hundred feet.We are selling shares at ten cents on the dollar. These shares  
must increase in value as the work goes on. (They have doubled in  
the last sixty days) The discovery of one good vein would make  
them worth ten times what we are now asking for them. We have  
had several encouraging assays and expect soon to be shipping gold  
ore. More than a million dollars per month in gold is taken from  
mines in the immediate vicinity of this property.An elaborate prospectus, with map, will be furnished on appli-  
cation, and if you desire further information please call at office of  
the company, as indicated above.
